Viewing Venues That Are Advertising a Network

From RUCKUS One, you can view information about venues that are advertising a network.

Complete the following steps to view a list of venues that are advertising a specific network.

1. From the navigation pane, click Wi-Fi > (and then)Wi-Fi Networks List.
The Network List page is displayed.
2. Click a specific Network name, then click the Venues tab. Alternatively, click Venue number in the Venues column.
The Venues tab is displayed.

Venues Tab

Venue	City	Country	Networks	Wi-Fi APs	Activated	VLAN	APs	Radios	Scheduling	Network Tunneling
7.0.0-v	Sunnyvale, Calif...	United States	3	1	<input checked="" type="checkbox"/>	VLAN-1 (Defa...	All APs	2.4 GHz, 5 GHz	24/7 ⓘ	<input type="checkbox"/>
My-Venue	New York	United States	4	0	<input checked="" type="checkbox"/>	VLAN-1 (Defa...	All APs	2.4 GHz, 5 GHz	24/7 ⓘ	<input type="checkbox"/>

The Venues tab displays a list of all existing venues in your RUCKUS One account, including the following information:

- Venue: Displays the name of the venue.
- City: Displays the city in which the venue is located.
- Country: Displays the country in which the venue is located.

- **Networks:** Displays the total number of networks configured on the venue.
- **Wi-Fi APs:** Displays the number of access points that have been added to the venue.
- **Activated:** Displays the activated or deactivated status of the venue. Venues that are activated indicate the venues in which this network is being advertised.
- **VLAN:** Displays the VLAN ID that is assigned to the venue.
- **APs:** Displays whether the network settings are applied to all APs or to specific AP groups of the venue.
- **Radios:** Displays the radio bandwidths on which this venue's APs are operating.
- **Scheduling:** Displays the network availability schedule for the venue.
- **Network Tunneling:** Displays whether network tunneling is enabled or disabled for the venue. If enabled, the way in which network traffic is tunneled at the venue is also displayed. Click the link to view the details of the service or profile being used.
